What is Safeguarding adults?

'Safeguarding means protecting an adult's right to live in safety, free from abuse and neglect. It is about people and organisations working together to prevent and stop both the risks and experience of abuse or neglect, while at the same time making sure that the adult's wellbeing is promoted including, where appropriate, having regard to their views, wishes, feelings and beliefs in deciding on any action. This must recognise that adults sometimes have complex interpersonal relationships and may be ambivalent, unclear or unrealistic about their personal circumstances.'

Care and Support Statutory Guidance, Department of Health, updated February 2017

All adults should be able to live free from fear and harm. But some may find it hard to get the help and support they need to stop abuse.

An adult may be unable to protect themselves from harm or exploitation due to many reasons, including their mental or physical incapacity, sensory loss or physical or learning disabilities. This could be an adult who is usually able to protect themselves from harm but maybe unable to do so because of an accident, disability, frailty, addiction or illness.

Camphill Shared Lives Communities Ltd adheres to following the six key principles that underpin safeguarding work (See Care Act guidance)

- Empowerment
- Prevention
- Proportionality
- Protection
- Partnership
- Accountability

Camphill Shared Lives Communities Ltd will not tolerate the abuse of adults in staff and volunteers should ensure that their work reflects the principles above and ensure the adult with care and support needs is involved in their decisions and informed consent is obtained. Camphill Shared Lives Communities Ltd should ensure that the safeguarding action agreed is the least intrusive response to the risk. Partners from the community should be involved in any safeguarding work in preventing, detecting and reporting neglect and abuse. Camphill Shared Lives Communities Ltd should be transparent and accountable in delivering safeguarding actions.

What is Making Safeguarding Personal (MSP)?

MSP means a case should be person-led and outcome-focused. The individual should be involved in identifying how best to respond to their safeguarding situation by giving them more choice and control as well as improving quality of life, wellbeing and safety.

Camphill Shared Lives Communities Ltd will not tolerate the abuse of adults.

Camphill Shared Lives Communities Ltd will ensure that adults are involved in their safeguarding arrangements and each individual is dealt with on a case-by-case basis. As adults may have different preferences, histories and lifestyles, the same process may not work for all.

Who do adult safeguarding duties apply to?

The Care Act 2014 sets out that adult safeguarding duties apply to *any* adult who:

- has care and support needs, and
- is experiencing, or is at risk of, abuse and neglect, and
- is unable to protect themselves from either the risk of, or the experience of abuse or neglect, because of those needs.

Who do I go to if I am concerned?

Fionn Reid will be responsible to make decisions about notifying adult social services if required and consider alternative actions, where necessary.

Fionn Reid will also ensure that the safeguarding adults' policies and procedures are in place and up to date. They will ensure a safe environment is promoted for staff and volunteers and adults accessing the service. Fionn Reid will ensure they are up to date with their safeguarding adults training.

What should I do if I am concerned?

Staff and volunteers at Camphill Shared Lives Communities Ltd who have any adult safeguarding concerns should:

1. Respond

- Take emergency action if someone is at immediate risk of harm/in need of urgent medical attention. Dial 999 for emergency services

- Get brief details about what has happened and what the adult would like done about it, but do not probe or conduct a mini-investigation
- Seek consent from the adult to take action and to report the concern. Consider whether the adult may lack capacity to make decisions about their own and other people's safety and wellbeing. If you decide to act against their wishes or without their consent, you must record your decision and the reasons for this.

2. Report

- Name the person to whom staff/volunteers need to report any potential safeguarding concerns. This will usually be the organisation's designated safeguarding lead (see above)

3. Record

- All information should be recorded on the Avalon (care provider) safeguarding form which is available to all staff/residents and volunteers when the concerns are centred around an adult with a learning disability.
- A copy will be kept with Avalon's care and support team and the Camphill Shared Lives Communities Ltd safeguarding lead.
- As far as possible, records should be written contemporaneously, dated and signed.

Keep records about safeguarding concerns confidential and in a location where the alleged abuser will not have access to the record. Access should not be given to any unauthorised person for accessing confidential information including the sharing of passwords. <https://eskvalleycamphillorg.ipage.com/wordpress-2/documents/>

-

4. Refer

In making a decision whether to refer or not, the designated safeguarding lead should take into account:

- (1) the adult's wishes and preferred outcome
- (2) whether the adult has mental capacity to make an informed decision about their own and others' safety
- (3) the safety or wellbeing of children or other adults with care and support needs
- (4) whether there is a person in a position of trust involved
- (5) whether a crime has been committed

This should inform the decision whether to notify the concern to the following people:

- the police if a crime has been committed and/or
- North Yorkshire Social Services for possible safeguarding enquiry
- relevant regulatory bodies such as Care Quality Commission, Ofsted, Charities Commission
- service commissioning teams
- family/relatives as appropriate (seek advice from adult social services)

The designated safeguarding lead should keep a record of the reasons for referring the concern or reasons for not referring.

Incidents of abuse may be one-off or multiple and may affect one person or more. Staff and volunteers should look beyond single incidents to identify patterns of harm. Accurate recording of information will also assist in recognising any patterns.

As soon as Adult Social Services becomes involved, a 4-stage safeguarding adults process is followed. For more information about this 4-stage safeguarding adults process, refer to the North Yorkshire Safeguarding Adults Procedures.

What are your roles and responsibilities?

All staff, management, trustees and volunteers at Camphill Shared Lives Communities Ltd are expected to report any concerns to the named person for safeguarding. The designated safeguarding adults lead should be responsible for providing acknowledgement of the referral and brief feedback to the person raising the original concern. Feedback should be given in a way that will not make the situation worse or breach the Data Protection Act. If the police are involved, they should be consulted prior to giving feedback to the referrer to ensure any criminal investigation is not affected.

The local authority will decide on who will lead on a safeguarding enquiry should it progress to that stage. The named organisation should not conduct its own safeguarding enquiry unless instructed to do so by the local authority.

Training, awareness raising and supervision?

Camphill Shared Lives Communities Ltd ensures that all staff and volunteers receive basic awareness training on safeguarding adults as they may come across adults with care and support needs who may be at risk of abuse. Those adults may report things of concern to staff or volunteers who should be equipped with the basic knowledge around safeguarding adults and be confident to identify that abuse is taking place and action is required. All staff and volunteers should be clear about the core values of Camphill Shared Lives Communities Ltd and commitment to safeguarding adults.

It is also useful to discuss training with staff who have attended training sessions to ensure they are embedding this in practice.

Voluntary organisations (including volunteers) who support adults with care and support needs can access the basic awareness safeguarding adults training provided by North Yorkshire County Council. For more information see: <https://www.northyorks.gov.uk/safeguarding>

Prevent

Radicalisation and extremism of adults with care and support needs is a form of emotional/ psychological exploitation. Radicalisation can take place through direct personal contact, or indirectly through social media.

If staff are concerned that an adult with care and support needs is at risk of being radicalised and drawn into terrorism, they should treat it in the same way as any other safeguarding concern.
